

Document Storage

Is it safe? Can I get to it when I need it? Is it cost effective? These are probably the first questions you ask when considering off-site document storage.

Obviously, you can save space by storing documents and files at a commercial storage facility. With our storage programs, you can also save money, time and worry. Hard copies, electronic media, business, financial or medical records — if you have it, we can store it, safely and cost-effectively.

Our Document Storage programs provide:

- Hard Copy Storage
 - Medical Records Storage
 - Media Storage
 - Fast Document/Information Retrieval
- Find out how we can save you so much more than space.

Contact us and a representative will do a no-obligation assessment of your document management requirements, and help you develop a program that will help you manage your documents and your budget.
